Source Control																		
Groundwater Lots 3 and 4																		
Barrier Wall Design																		
Barrier Wall Construction																		
Groundwater Extraction and Treatment System																		
Design																		
Construction																		
Startup																		
Groundwater Lots 1, 2 and 3																		
Source Control Determination																		
Alternatives Analysis																		
Remdial Design							TBD											
Stormwater																		
Design and Implimentation Work Plan																		
Design and Construction						Ideally in place	prior to barrier	 wall construction	 n _.									
River Bank																		
Alternatives Evaluation																		
Alternative Selection																		
Design and Implementation Schedule TBD																		
Upland Feasibility Study																		
FS Work Plan																		
FS																		
ROD																		
RD/RA TBD
